

Help Build a Brighter Future — One Story, One Song, One Community at a Time

Rise and Shine Canada is a grassroots movement celebrating Canadian stories, music, creativity, community action, and practical solutions for a cleaner, brighter future.

Led by **Woodstock Wiz**, we are building a platform that brings people together through music, conversations, events, and positive action — including community-driven ideas like renewable energy, solar co-ops, and local collaboration.

We are looking for volunteers who want to help us grow the movement.
